Subject: Rough estimates on travel time and updated map

Attached is a spreadsheet with travel times based on 10 miles at 10 am, and an updated map with discharge numbers, etc.

The Travel Times are listed as calculated with estimated cross section info and calculated using 1 mph as the rate of movement.

I have my laptop at home so give me a call on my cell if you need something over the weekend:

Personal Phone/Ex. 6

Thanks and hope you have a good weekend,

Robert Kirkland
